

STEPRITE®

ACCESS SOLUTIONS

BY OEM GROUP®

Safety and Productivity Redefined

Reduce risk, provide safer work stations and increase productivity with the portable and heavy duty STEPRITE® Safety Access Platforms from OEM Group®.

Why choose STEPRITE®?

- ✓ Reduce your Operational Downtime
- ✓ Increase your Productivity
- ✓ Improve your Safety

Designed to eliminate fall hazards and manufactured to comply with all your occupational health and safety requirements, STEPRITE® Safety Access Platforms are suited for even the toughest of sites and conditions.

STEPRITE® Safety Access Platforms require minimum maintenance and have been designed and independently tested to exceed all relevant Australian Standards

MODEL	PLATFORM HEIGHT	PLATFORM AREA	BASE AREA	APPROX WEIGHT
SWP500	500mm	750mm x 750mm	940mm x 900mm	52kg
SWP750	750mm	750mm x 750mm	1025mm x 900mm	61kg
SWP1000	1000mm	750mm x 750mm	1110mm x 900mm	66kg
SWP1250	1250mm	750mm x 750mm	1200mm x 900mm	71kg
SWP1500	1500mm	750mm x 750mm	1350mm x 900mm	76kg
SWP1750	1750mm	750mm x 750mm	1450mm x 900mm	81kg
SWP2000	2000mm	1000mm x 1000mm	1725mm x 1145mm	114kg
SWP2250	2250mm	1000mm x 1000mm	1815mm x 1145mm	120kg
SWP2500	2500mm	1000mm x 1000mm	1900mm x 1145mm	137kg
SWP2750	2750mm	1000mm x 1000mm	2125mm x 1145mm	143kg
SWP3000	3000mm	1000mm x 1000mm	2100mm x 1145mm	149kg

250kg Working Load Limit

Designed & Tested to AS 1892.1:2018

Anti-slip Standard on all Platforms

Lightweight & Portable

Flat-packed for Cost Effective Transport

Heavy-duty 4.5mm Platform

If you require custom designed, built-for-purpose safety access platform, contact us to discuss your specific needs.

Safety Work Platform Ladders

Safety Access Platform Ladders

1. SAFETY CHAIN & CLIPS

All work platform ladders come with strong, fully welded safety chains and clips.

2. SAFETY GATE

All work platform ladders come with an inward-opening safety gate, which can be locked in the open or closed position. This provides a kickplate all around the platform as required by Australian standards.

3. C-SECTION

Specifically designed lightweight 'C' section provides high strength and torsional resistance. It also allows all fixings to be concealed and not protrude where they could cause injuries or damage.

4. HANDRAIL

Seamless, fully welded 915mm high handrail with a midrail to ladders and platform.

5. FIXED WHEELS

For easy maneuverability.

6. FRAME DESIGN

Unique design allows the work platform ladders to be flat packed for easy, cost-effective transport and storage. Each ladder comes with easy step-by-step installation instructions.

7. ANTI-SLIP

Special non-slip to improve onsite safety by assisting with the prevention of slips and falls.

8. LIFTING HANDLES

Conveniently placed lifting handles allow the unit to be moved around easily.

9. HEAVY-DUTY PLATFORM

Non-slip surface with 4.5mm thick plate for added strength and durability.

10. TOOL TRAY

Keep tools and equipment dry and clean using the included tool tray.

11. FEET

Large feet with non-slip rubber mouldings to provide a stable footing.

MINESPEC UPGRADE:

12. BARN-STYLE SAFETY DOORS

One-way self-closing barn-style safety doors, with safety hinges and Safety Yellow paint.

13. BOOM-RAIL

Barrier to prevent access up to a controlled point.

14. FORKLIFT POCKETS

Providing a simple solution for the safe positioning of safety access platforms with a forklift. *Applies to SMP1000 (1mtr) and above.

OPTIONAL ACCESSORY:

LOCKABLE SWIVEL WHEELS

STEPRITE® Safety Access Platforms are available with optional lockable swivel wheels for ease of manoeuvrability.

SPECIAL BUILDS

While our standard range of STEPRITE® Safety Platform Ladders provides a quick and reliable solution for most access needs, we understand that specialised requirements often call for custom solutions.

STEPRITE® offers a complete design and manufacture service for purpose-built safety platform ladders tailored to your specific needs. Our Special Builds can include:

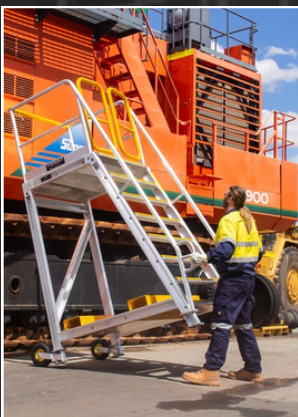

- Custom ladders or access stairs
- Fixed or removable handrails
- Custom widths, heights, and configurations
- Solutions for restricted equipment access areas
- A variety of wheel types and materials
- Handling options such as crane lifting points or forklift pockets for ease of movement

All STEPRITE® Special Builds are designed and manufactured in accordance with relevant Australian Standards, as well as any company-specific codes or occupational health and safety requirements. Engineering certification and testing are available upon request (additional cost applies).

STEPRITE® Special Builds can be fully customised to suit your operational requirements.

BUILT FOR EVERY INDUSTRY

STEPRITE® Safety Access Platforms are designed for working at heights across a wide range of industries, including mining, maintenance, aviation, marine, construction, transport, agriculture, mechanical and manufacturing workshops, and more.
