

## LPG Gas Storage Cage - 24 x 9kg

### EW-GCF12

LPG storage cages like our Gas Cylinder Cages are used to extend the life of your propane tanks and protect them from being dropped or hit, preventing disastrous workplace accidents. LPG Gas Cylinder Cages are a key element of proper propane storage.

Cylinder Cages are used to extend the life of your propane tanks and protect them from being dropped or hit, preventing disastrous workplace accidents. LPG Gas Cylinder Cages are a key element of proper propane storage. Propane is already a hazardous flammable material, that when pressurized into a metal tank, carries a deadly potential explosive force if mishandled. Gas cylinders should be treated with the respect they deserve and put in a cage. Our LPG storage cages come with a lockable latch, mesh sides and front for great ventilation and a solid roof that will protect the cylinders from damage.

The 9kg LPG Storage cages are perfect for the service station or retail shop wanting to safely store 9kg gas bottles. It is fully lockable but also offers easy access to quickly exchanged gas bottles.

2040mm W x 760mm D x 1285mm H

The gas cage has a sheet roof to protect the 9kg bottles from the elements to ensure long life of the cage.

- Levelling feet are included.
- Zinc finish corrosion protection for long life
- Can be stacked 2 high when loaded or 3 high empty
