

DUAL FUNCTION – UNIVERSAL CALL POINT CORDLESS

The innovative Dual Function Call Point integrates reliability, flexibility, cost saving and patient safety into one product.

Reliability

Back plate is hardwired to the head-end so that it has loss signal and it operates on input voltage between 12-30VDC. The design complies with AS3811.

Flexibility

It can accept wireless and hardwired devices such as pendant and fall prevention sensor mats.

Cost Saving

With the ability to accept 8 nurse call devices on one single call point, stand-alone monitors are no required.

Patient Safety

With wireless transmitters, cables on the wall and floor are non-existent. Patient/Resident living environment is trip-hazard free.

Wiring Diagram is upon request only

Order Part Number:

- MED-UCPV5.2M-XX for Momentary Switch
- MED-UCPV5.2L-XX for Latching Switch
- MED-UCPV5.2D-XX for Dual Relay

Key Specifications:

- Australian Design
- RCM Approved:
AS/NZS61000.6.3.2012
- Anti-Bacterial Silicon Buttons
- Wireless memory-5 Devices
- Hardwired-3 Devices (using Y-cable)
- Detection Range-Up to 30m (line of sight)
- Available with or without a 6.3 mm Stereo Jack
- Tactile Mechanical Switch with Silicon Button Actuator
- Input Supply: 12-30VDC
- Permanent dim backlight, goes full bright for reassurance
- Optional Buttons:
Nurse Call – Green (with Braille),
Assist-Yellow, Emergency-Red, Cancel-White
- Selectable profile emulation:
Latching; Momentary and Dual Relay
- Input Connectors:
 - RJ45 Socket or Terminal block
 - Bed Light On-Off Connection on the Main Board
- Selectable Pendant-Out alarm
- Suits Standard Australian Electrical Boxes and Mounting Enclosure

XX denotes:

- C** = Call/Cancel no Jack
- A** = Assist/Cancel no Jack
- E** = Emergency/Cancel no Jack
- CS** = Call/Cancel with Jack
- AS** = Assist/Cancel with Jack
