

For heavy-duty industrial cleaning and hazardous dust collection

The tougher the cleaning, the better the vacuum cleaner needs to be. This is why so much thought has gone into the design of the IVB 965-21 SD. With 7200 ltr. per minute of air flow, and 3000 W of maximum power, it is capable of fast, productive cleaning of dirt, metal chips and liquid spills. At the same time, it can be fitted with H-Class filtering for use where the dust may be potentially hazardous. But the real edge over the competition can be seen in the practical 'sit-down' system for emptying the container, and in the special design features that make the work just that much easier. A range of 38 mm and 50 mm accessories are available and makes it possible to handle all kind of jobs.

- Two motor industrial performance
- XtremeClean fully automatic filter cleaning system for high efficiency also in H class
- Big surface filter for high efficiency and low maintenance costs
- Stainless steel sit down container for easy handling and disposal
- 10m cable for a large working radius
- Disposal bag standard
- Socket for automatic on/off (only -2H/M model)
- One year commercial warranty

## PRODUCT FEATURES

Tube holder	•
Softstart	•
Tool tray	•
Anti-static system	•
Motor speed control	•
Robust steel chassis	•
Low working sound level	•
Stainless steel container	•
MultiFit accessory system	•
Genuine rubber mains cable	•
Washable PET fleece filter	
Automatic on/off - electric tools	•
Big wheels and convenient grip	•
H-class hazardous dust approval	•
XtremeClean filter cleaning	•
Storage of accessories	•
Cable storage	•
Disposal bag 1 pcs	•

Technical specifications	IVB 965-2H/M SD XC 230/1/50 EU
