# CH-SYSTEM

## STORAGE SYSTEM

### CHC SYSTEM

#### REMOVABLE SHELVES

Storage system equipped with removable shelves, which allows the shelf to be completely removed from the system with a forklift.

### CHF SYSTEM

#### FIXED SIDES

Storage system equipped with manual (up to 3000 kg / 6500 lb) or automatic sliding drawers.

This system model, allows handling with forklift and crane.

### CHA SYSTEM

#### FOLDING DOORS

This model enables the sides to be folded down while not in use, keeping the work space free.

**100%  
FUNCTIONAL**

## **CHX SYSTEM** COMBINED

Combined system perfect for storing both individual sheets and full bundles.

The system is divided into two parts: the lower frame, dedicated to the storage of individual handling sheets, and the upper frame intended for the storage of complete packages.

This system can be equipped with different types of shelves and drawers: fixed and removable shelves, sliding and interchangeable drawers. The interchangeable ones can be used in either of the two frames.

The lower part can be handled with forklift and an overhead crane, while the upper part can only be used with a forklift.

# 100% CUSTOM IZABLE

Fully adaptable to your needs.
