

4T Steerable Load Skate with Swivel Castors – Removable Handle, Optional Twist Lock Top

Move heavy industrial equipment safely and efficiently with the MWCRP-5C Industrial Shifting Skates. Designed for loads up to 4000kg, these skates feature 360° rotating wheels and a swivel plate, allowing effortless movement in any direction.

The skates include a removable connecting handle (1080mm standard) for easy control during transport. The maintenance-free design comes with integrated handles, making carrying and positioning simple.

For precise placement, the skates can be used with a roller crowbar or a jack. Additionally, an optional twist-lock top is available for moving containers (sold separately, scroll down to add to cart).

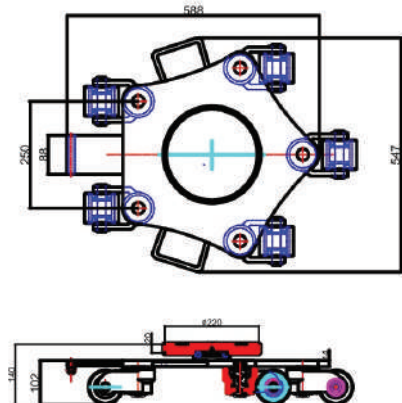

Features

- 4-tonne (4000kg) load capacity.
- 5 rollers with 80x70mm roller size.
- 360° rotating swivel plate for multi-directional movement.
- Removable connecting handle (1080mm).
- Maintenance-free design with integrated carrying handles.
- Can be positioned using roller crowbar or jack.
- Optional twist-lock top available for container moving.
