Description

KIDOO HOME™

KIDOO HOME™ is a special needs stroller which is perfect both for therapy and recreation, as well as other every day activities such as learning or having meals. The stroller can be used at home, school, in the kindergarten or in a group of peers. **KIDOO HOME™** turns out to be an indispensable tool in the rehabilitation process, both in terms of therapy and social integration.

Its construction is based on the therapeutic chair for children **KIDOO™**, and just like in the **KIDOO™** chair, the child is provided with a proper support and safety. Apart from that, the stroller can be easily adjusted to meet your child's needs and disfunctions.

The 4-point safety vest additionally enhances the comfort and protection of the user. The stroller has an adjustable seat and armrests height as well as the backrest tilt angle. The **HexagonPro™** adjustable headrest guarantees a correct and extremely comfortable head support.

KIDOO HOME™ stroller is set on a mobile base equipped with four swivel wheels with a brake, which is why it moves quietly and is exceptionally maneuverable. The user's feet are secured on the adjustable footrest with 2-point feet stabilizing belts.

KIDOO HOME™ is made of user friendly materials. It is available in 5 sizes.

Accessories

Foot and ankle stabilizing sandals

They protect and stabilize the ankle joint. They are made of elastic material, recommended for users with increased muscle tone. They can be used with or without shoes.

Knee abductor

Adjustable and easy to remove. Prevent in legs crossing. Made of soft foam, upholstered with easy to wash medical fabric.

Narrowing pads 6/10 cm

Made of elastic foam trimmed with medical upholstery. They are attached to the armrests from both sides. Thanks to them you can narrow the seat by 6/10cm.

Lateral support

Width adjustable supports that provide additional side stabilization of the trunk. You can mount it at different height.
