

TQ-3-500H TOAST QWICK NEW PROGRAMMABLE CONVEYOR TOASTER

The Hatco Q3-500H Model High Wattage Toaster ushers in a *NEW ERA* in Conveyor Toaster technology with powerful features, high capacity and up to twelve programmable settings for real production power and no guess-work.

Also, Hatco's patented 'Colorgard' Sensing System automatically adjusts conveyor speed to maintain consistent toast colour regardless of how busy or quiet the production needs are. No more wastage trying to guess the correct setting.

TQ3-500H

NEW DIGITAL PROGRAMMABLE MODEL
With Touch Screen control and Exclusive
Colorguard technology maintains toast colour

New digital controls, USB port for software updates, Programmable Power Save function for economy, 12 program settings and up to 500 toast slices per hour speed makes this model productive, easy to use for even casual staff, and versatile enough for buns, muffins, sandwiches etc. All Hatco Toast Qwick models are the result of years of experience manufacturing high output, quality products for the food industry, and come with our exclusive 13 month on-site parts and labour warranty.
