

Bariatric Bed

novacorr.com.au

Delivering the best quality and comfort in our tilt and lift chairs and electric beds in Australia.

Authentic thinking. Empathetic living.

Bariatric Bed

Novacorr Healthcare, like other health industry professionals, are committed to providing quality solutions.

People living with obesity face many challenges. The condition often causes anxiety, stress, reduced mobility and a range of adverse health outcomes.

The Novacorr Bariatric Health Bed is designed to eliminate some of the significant challenges and alleviate some of the health symptoms linked to excess weight and obesity.

Health professionals can have confidence recommending a Novacorr Bariatric Health Bed knowing that our custom-made beds are designed and manufactured to exact standards and are weight tested for up to 400kg. Our detailed scripting process will ensure that individual needs are captured and form part of the design process.

All Novacorr beds are adjustable in height and allow for head and leg elevation to reduce swelling, improve circulation, alleviate pressure points and pain, providing improved access and movement during transference and alleviate symptoms from health conditions such as acid reflux and asthma.

Mattress Choices

With the perfect combination of both bed and mattress structure along with personalised finishes, we provide our customers with maximum support, practicality and comfort.

Novacorr Healthcare offers a complete range of both standard sized mattresses and fully custom-made mattresses and mattress toppers.

Choose from:

- Pressure Prevention Memory Foam
- Gel Fusion
- Contoured Latex
- Inner Spring Pillow Top
- Hospital Grade Foams
- Pocket Spring
