### Product Information Sheet

## Absorb's Accumulation Centre's

Absorb Accumulation Centre's are similar to a Spill Pallets only with a lower profile, these 2 and 4 drum units have a lower capacity so they're ideal for smaller containers like batteries, 20 litre or 60 litre drums. The 6 and 8 drum units meet sump capacity requirements for 205L drums.

#### IDEAL FOR:

- The 2Drum and 4Drum units are ideal for the storage of batteries, 20 and 60 litre drums.
- The 6Drum and 8Drum units are ideal for the storage of 205 litre drums as well.

#### TIPS:

- The grates can be removed for easy cleaning. Place absorbent pads under the grates to absorb spills as they happen.

Part No	Description	Size
AES 2DRUM	Absorb Two Drum Accumulation Centre	125cm x 64cm x 14cm
