

Air treatment is heavily influenced by the extreme weather conditions of bushfires and floods. This puts a strain on asthma and allergies, causing breathing difficulties. This Air Purifier Filter 17.6cm x 18cm for the Air Purifier with CADR 205m³/h will prevent the interior risks of poor air quality.

Model: APF67

Air Purifier Filter 17.6cm x 18cm

Features

- We recommend replacing the filters about every six to eight months, sooner or later depending on the frequency of use and pollution level in the environment
- Changing the filter is as simple as twisting open the bottom of the air purifier and swapping out the filter
- Always ensure the packaging is removed first before inserting the filter into the air purifier

Specifications

- **Features:** Air Purifier Filter 17.6cm x 18cm for Air Purifier with CADR 205m³/h
- **Filter:** Pre filter + HEPA + activated carbon, size 17.6cm x 18cm
