MASSIMO

3 AXIS CNC

DESIGN FEATURES

A MID SIZE 3 AXIS CNC
The Massimo is a mid-size 3-axis CNC machine, designed to fit between the smaller Alexia and the full-size Legend models. It's a versatile machine capable of handling a variety of tasks, making it suitable for different workshop sizes and needs.

SIMPLE, EASY TO USE SOFTWARE
The Massimo features a user-friendly interface with a Windows-based operating system. This makes it easy to operate, even for those with limited experience. The software is intuitive and comes pre-loaded with common sink templates from brands like Oliveri, Franke, Clark, and Blanco. Additional shapes can be created using the parametric section, extending the machine's capabilities.

INTERNAL AND EXTERNAL POLISHING AND PROFILING
The Massimo can handle both internal and external edge profiling and polishing. This means it can create detailed edge profiles like bullnose and lambstongue, as well as polish both the inside and outside edges of stone pieces.

TAGLIO CAD/CAM SOFTWARE INCLUDED
The machine comes equipped with Taglio CAD/CAM software, which has been developed over 35 years for stone processing.

FARNESE MACHINERY

MASSIMO

FEATURES

The new Massimo from Farnese Australia is a mid-size CNC, designed to fit into our range between the smaller Alexia and the full size Legend. This very capable machine can take care of undermount cutouts, drill holes, produce drain grooves and flat drain board recesses, along with both internal and external edge profiling and polishing.

MASSIMO

FEATURES

User Interface

A powerful, yet user friendly interface makes operating the new Massimo a breeze. The MS Windows based operating system is intuitive and easy to understand, even for relatively inexperienced operators. It comes pre-loaded with common sink templates from brands including Oliveri, Franke, Clark and Blanco.

Automatic Tool Changer

this machine also features retractable clamping pistons in the middle of the table for easy processing of undermounts. The Massimo has automatic tool changing with 28 tool stations.

SUMMARY OF FEATURES

- Mid size 3 axis CNC
- Easy to use interface and software
- CAD / CAM system
- Taglio Software - Advanced CAD/CAM Software solution
- After sales service
- Australian company
- Local supply of spare parts
- Remote access for troubleshooting help

We Know That Support Is Important To You.

Buying a new machine is a big commitment for anyone and continued support throughout the life of that machine is vital.

Being a local company, Farnese carry a vast array of parts locally to ensure that your machine always has the spares it needs. Enjoy peace of mind knowing that you'll be fully supported by Farnese and we'll always have you covered.

Farnese customers don't need to experience unnecessary machinery downtime waiting for remote assistance from other countries, as all the support and remote assistance is provided locally from our own qualified Technicians.

Our mission here at Farnese is to give you the best support in the industry. As we grow, we continue to recruit more and more qualified technicians to further strengthen our position in the Stone Industry.
