PERSONNEL CLEANING STATION

Running off standard shop compressed air, the Personnel Cleaning Station pairs a proprietary, on-demand air-agitator brush attachment with a high-efficiency pneumatic vacuum. Thumb-switch activated, the air-agitator loosens and lifts particles airborne where the vacuum sucks them away safely and effectively. With no motor to burn out, the Personnel Cleaning Station is virtually maintenance-free. Vertical Mounting System (VMS) mounts on any vertical surface, saving valuable factory floor space.

Specifications

Size

Capacity: 5.5 Gallons

Weight: 13 lbs

Material

Canister: Polyethylene

Mounting Plate: Steel

Air Requirements

Inlet: 3/8" FNPT

Air Pressure: 80-120 psi

Air Consumption: 33 cfm

Performance

Vac Flow: 73 cfm

Noise Level: 92 dBA

Filtration

Filter: Standard Cartridge

77% Efficient @ 0.8 Microns

Vacuum Hose

Inlet: 1 1/2" ID

Length: 5 ft

Part Number	Description
CS3000	Personnel Cleaning Station
MV2000MP	Mounting Plate
MV2000G	Gasket
MV2000F1	Cartridge Filter
MV2000F2	HEPA Filter

Part Number	Description
MV2000EB	Exhaust Bag
MV2000BR	Plastic Brush Attachment
2000A02	Handle & Hose Assembly
2000A03	Handle Assembly
2000A04	CS3000 Vacuum Hose
