

SINGLE
PATIENT
USE

SafeSlings SPU General Purpose Slings

A general purpose high back sling, with additional head support, providing enhanced patient comfort during transfer.

- Suits clip-style or loop hoists
- Supports entire body including head
- Use with one patient for their entire stay (or maximum of 6 months)
- Not to be used on multiple patients
- Sling size easy to identify from colour coded binding
- Panel provided to indicate name of patient
- If sling is accidentally washed or heavily soiled, the wash indicator under sewn-on label will change from pink to red colour
- With high back and head support, patient comfort during transfers is enhanced
- SafeSlings General Purpose with Head Support sling can be used for bed, chair or floor lifts
- Tested to Australian Standards AS/NZS ISO 10535:2011
- 120 g non-woven fabric
- 100% Polypropylene
- Safe Working Load: Variable (see table)
