

exciplex[®]

308

**A Clinically Proven Excimer System
for Localized Skin Treatment**

SAFE • EFFECTIVE • PAINLESS

**Vitiligo
Psoriasis
Alopecia Areata
Mycosis Fungoides
Atopic Dermatitis**

CE
FDA
APPROVED

**More than
200 CLINICAL STUDIES
have shown the efficiency
of Monochromatic Excimer Light (MEL) 308nm
in treating auto-immune skin diseases**

**Exciplex® emits Monochromatic
Excimer Light at 308nm, the best wavelength
to treat chronic auto-immune skin diseases.
An innovative and modern device
with unmatched clinical efficiency.**

**Dermatologists around the world have recognized
the benefits of Exciplex® for their patients.
This innovation makes it possible
to offer their patients the best treatment.**

Laurent Meilhac PhD,
Founder - CLARTEIS

VITILIGO

« It has been proven efficacious in vitiligo using excimer lamp system and has potential for widespread usage due to its faster and better repigmentation rates and limited side-effect profile. »

Park et al, 2012

PSORIASIS

« Our results show that MEL treatment causes a significant depletion of T cells in all psoriatic lesions, 48 h after the first irradiation: 308 nm light eliminated T cells from the psoriatic epidermis as well as from the dermis... »

Bianchi et al, 2003

ALOPECIA AREATA

« Our results suggest that the 308-nm excimer lamp is a good therapeutic alternative without serious side effect for treating AA (Alopecia Areata) »

Otsuki et al 2013

ATOPIC DERMATITIS

« MEL can be considered as a valid and safe therapeutic option for the treatment of localized AD in adults and children. »

SP et al. 2008

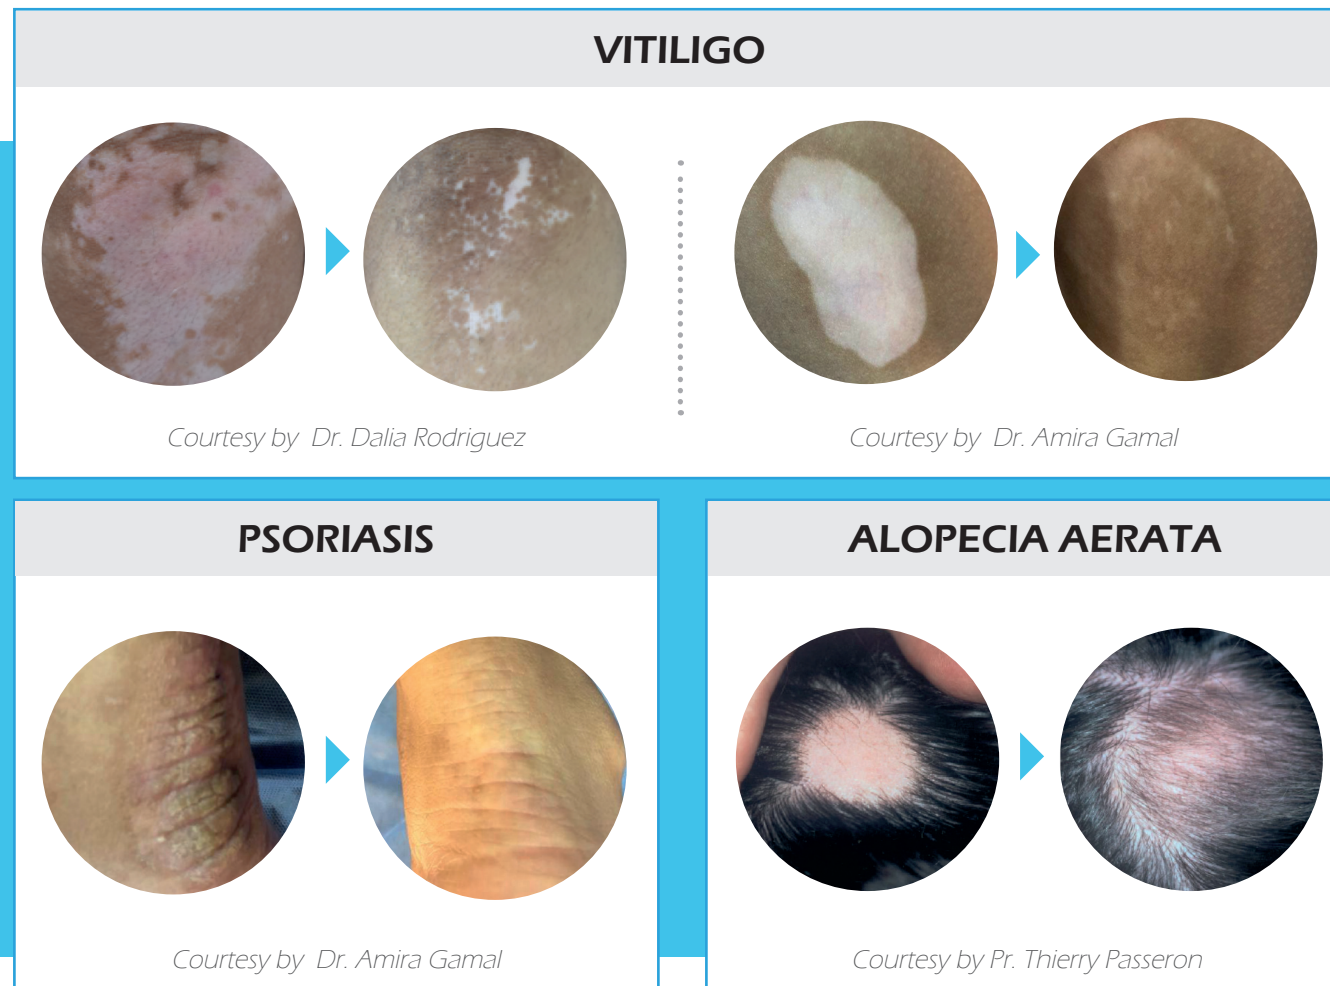

MYCOSIS FUNGOIDES

« Our preliminary results suggest that MEL phototherapy is a possibly very useful treatment modality in patch stage IA MF.. »

Mori et al. 2004

EFFECTS ON THE SKIN

Local Immune system suppression. Induction of T cells apoptosis.

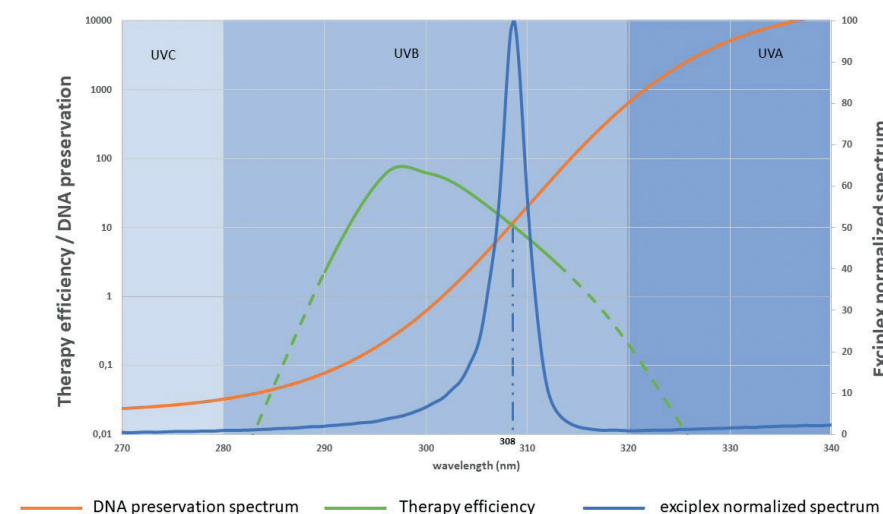

Exciplex® is a simplified treatment solution that completes your dermatology practice...

- Attract **NEW PATIENTS** with an effective treatment
- **DIFFERENTIATE** your practice with modern technology
- Maintain **HIGH SAFETY STANDARDS**
- Control costs, **NO CONSUMABLES**

308nm, THE BEST WAVELENGTH

› High Efficiency & low risk

Below 300 nm
High DNA damage = dangerous for patient

300 – 310 nm
Safe and high efficiency

Above 310 nm
Very Low efficiency

Awarded global recognition & enthusiasm for its performance!

« It is not only a well-demonstrated, effective and safe treatment for Vitiligo but an efficient option for localized forms of Alopecia Alerata & MF. It is painless and we have great results especially for children. » *P.r Thierry Passeron, France*

« Exciplex® is one of the most powerful systems available, it is also light weight and ergonomically designed, it is easy for me and my staff to use » *Dr. Swapnil Shah, India*

« My patients are satisfied with the results of Exciplex®. The treatment is fast and very convenient with almost no side-effects » *Dr. Takafumi Ushida, Japan*

Easy transportation
thanks to the compact carry case...

With its low acquisition cost and special features,
Exciplex® is great value for your practice

COMPLIANCE

CLASS IIb MEDICAL DEVICE
CE MARKED
FDA APPROVED
manufacturing **ISO 13485** CERTIFIED

POWERFUL

Fluence of 100 mW/cm²
and total power of 2500 mW
resulting in fast treatment

PRECISE

A large spot size of 25 cm²
to treat large areas but
also adaptable for smaller
lesions using reduction tips.
This protects healthy skin.

EASY TO USE

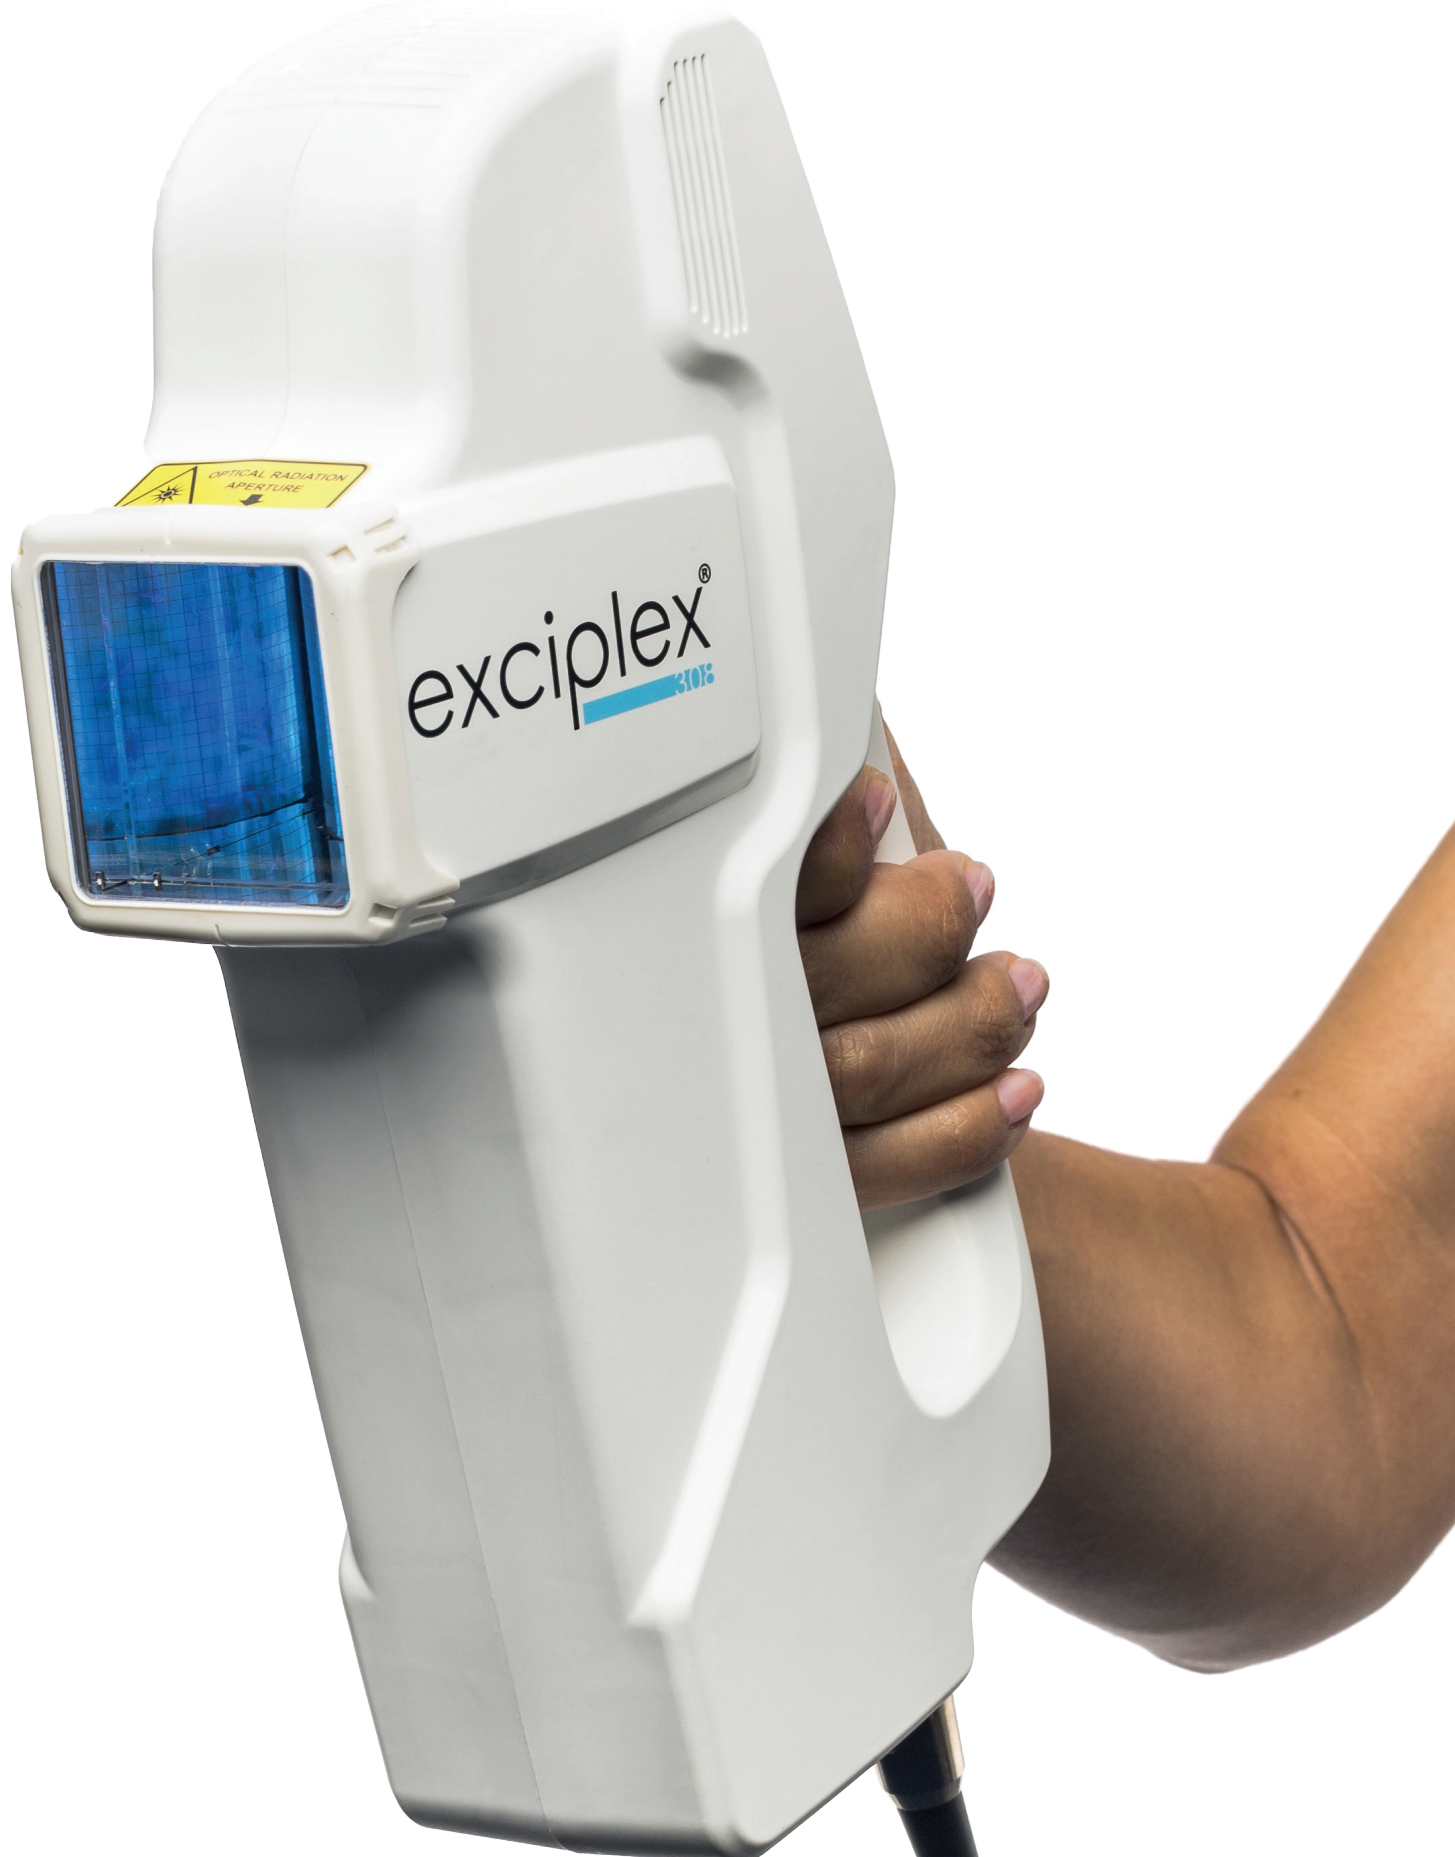

Color touchscreen
with simple layout,
Only one parameter
required: the dose

ERGONOMIC

Modern design with a comfortable handle.
Small, Light weight and easily moveable

TECHNICAL SPECIFICATIONS

- › WAVELENGTH: 308 nm
- › LIGHT RANGE: Monochromatic UVB
- › POWER DENSITY: **100mW/cm²**
- › SPOT SIZE: Up to **25 cm²** with 6 reduction tips
- › TOTAL OPTICAL POWER: 2500 mW
- › WEIGHT: **950g**
- › DIMENSIONS: 27cm x 8cm x 15 cm
- › COOLING: Pulsed Air
- › ELECTRICAL CHARACTERISTICS: 100-240V / 50-60Hz / 180 VA
- › SOURCE: Xenon-Chloride (XeCl) lamp
- › HEATING TIME: **0 s**
