## FITTING INSTRUCTIONS

### STEP 1

Select correct size device using the tables below.

### STEP 2

Remove hinges from pockets and contour as required. If required add the flexion or extension stops at this point. Return the hinge to the pocket making sure they are placed on the correct side in the correct orientation.

### STEP 3

Apply the brace so that the patella opening is located over the patella. The centre of the hinge should be located at mid patella level. Close and secure the neoprene flaps (anterior closure model only).

### STEP 4

Secure the touchtape straps.
