Rhino Hot Water Pressure Cleaner Single Phase 1750 psi

Part Number: 00HS1211

Although the "baby" of the Hotshot family, the Rhino packs plenty of punch with 1750 psi and a flow rate of 11 litres per minute. Like the Hippo and the Jumbo, this high pressure cleaner is built with a powder coated steel frame and is designed to give easy access for maintenance. The stainless steel cover gives long lasting protection to your investment and the low speed Interpump ceramic plunger pump offers much longer operational life than older style high speed machines. This hot water pressure cleaner is now a firm favourite with the hire industry

SPECIFICATIONS

Flow: 11lpm

Motor Type: Electric

Motor Power: 2.2kW

Voltage: Single Phase 230-240V 50Hz

Hp Hose Type: 3/8 in two wire braid
