PRO.EQUIP UNDERCOUNTER DISHWASHER 575MM PE500

Product Code: 4012336

Product Description: Introducing the PE500 Pro.equip Dishwasher, part of our new and exclusive range of glasswashers and dishwashers designed to meet the demanding needs of bustling bars, bistros, cafes, and restaurants. Engineered with precision and reliability in mind, this dishwasher ensures your wares are impeccably clean and ready for service, every time.

With three wash cycle options, the PE500 Pro.equip under-counter dishwasher delivers superior performance ensuring thorough cleaning to remove stubborn residue. This is supported by the standard peristaltic detergent and rinse aid dispensers which can be adjusted from the control panel.

What are Peristaltic Pumps? These are dosing pumps that are specifically designed to dispense precise amounts of chemicals during each wash cycle. This increases the efficiency of the dishwasher as the correct dose of detergents and rinse aids are triggered for release reducing the amount of chemicals required, over-dosed wash cycles, and pressure on the machine. This results in reduced overall running costs, water, and electricity consumption which is especially important in commercial dishwashers required to run at high temperatures with very fast wash cycles.

This model features three wash cycles - 60, 120, and 150 seconds.

The straightforward control panel makes operating the PE500 Dishwasher simple, even during the busiest shifts. The three wash cycles are easy to navigate without fuss or extensive experience working with commercial kitchen equipment.

The PE500 boasts a compact design that fits seamlessly into any kitchen or cafe layout without issue. This model is suitable for tight spaces or under-counter installation for easy access and convenience. Further to this, the surface area and handle are easy to clean ensuring perfect presentation while the busy wash cycles are in progress.

Made in Italy with quality craftsmanship, this Pro.equip Dishwasher, available exclusively from Reward Hospitality, has been engineered to comply with the strictest international construction standards, and reduce the consumption of water, energy and detergent. This is your ultimate partner in delivering impeccable service with ease. With innovative technology, durable construction, superior cleaning performance and inbuilt self-diagnosis technology, this is the perfect machine to keep crockery, glassware and silverware sparkling, and your operations running smoothly.

Invest in the PE500 Dishwasher for a superior glass washing experience for superior results in your establishment. Shop the full range of Commercial Kitchen Equipment by Pro.equip at Reward Hospitality and if you need help, our team of Equipment Experts are available to assist so you're confident
