

Tenso® TS-502MV

Semi-Auto Vertical Strapping Machine

#60443

Introducing the Semi-Auto Vertical Strapping Machine, a cutting-edge solution from Gateway Packaging. This strapping machine inherits all the advantages, including a compact strapping head, German-made DC motors with direct drive technology, and electronic tension control. It eliminates the need for manual tools and dispensers, offering a convenient and efficient alternative. Plus, its design allows for easy movement alongside the load without having to relocate the pallet. The Semi-Auto Vertical Machine provides an ergonomic and cost-effective solution for low-volume vertical pallet strapping applications.

Features

- Compact mechanical strapping head
- Electronic tension control
- Jog switch
- Mobility
- Good for lower height pallet
- Adjustable weld-cooling time

Specifications

| | |
|--------------------------------|---------------------------------------|
| Strap Type | PP strapping |
| Strap Width | 9 mm, 12 mm, or 15.5 mm |
| Tension Range | 8 - 70kg |
| Weight | 93kg |
| Electrical Requirements | 110V, 220V, 230V, 240V 50/60Hz 1PH |

Optional

- Battery Power Supply
