

Designed for safety
Trusted in the field

20,000+

CREWS WORLDWIDE RELY ON
LIVETESTERS FOR PRECISION & TRUST

PROVEN IN THE FIELD SINCE 2007

StarLogixs LiveTesters are
Australian-designed, field-tested and
trusted by crews worldwide for safe,
accurate high-voltage detection

LT220 Model
Product Code: SL-X-LT220

100% AUSTRALIAN DESIGNED & MANUFACTURED

Confidence Around High Voltage Powerlines

In the field, **uncertainty is dangerous.**

When crews are approaching overhead conductors or working near energised assets, **knowing the voltage status is essential.**

LiveTesters give crews immediate, unambiguous feedback, reducing risk and reinforcing safe work practices.

Trusted by Field Crews Worldwide

20,000+

CREWS WORLDWIDE RELY ON
LIVETESTERS FOR PRECISION & TRUST

When teams operate near overhead electrical hazards or respond to emergencies, LiveTesters provide immediate voltage insight that supports safer, more informed decision-making.

- ✓ Utility Networks
- ✓ Contractors & Civil Works
- ✓ Rail & Transport Corridors
- ✓ Industrial & Mining Sites
- ✓ Rural & Remote Operations
- ✓ Telecommunications Contractors
- ✓ Emergency Services
- ✓ Vegetation Management Crews
- ✓ Utility Subcontractors
- ✓ Local Government & Public Works

Smarter Features for Safer Work

Each LiveTester combines smart safety features, bright visual and audible alerts to ensure reliable high-voltage detection in the field. Every feature is designed to help crews work safer, faster and with total confidence.

Our patented Static Discriminator Technology is **exclusive** to LiveTester.

No other high voltage non-contact detector offers this level of interference rejection or detection accuracy.

STATIC DISCRIMINATOR

11 RANGES

AUTO POWER OFF

SELF TEST BUTTON

UNIVERSAL ATTACHMENT

LOW BATTERY INDICATOR

LOUD AUDIBLE ALERTS

BRIGHT VISUAL INDICATORS

LiveTester URD Model
Product Code: SL-X-LTURD

Built for Every Network

The LiveTester range includes models engineered for different voltage levels, network configurations and job-site conditions. Ensuring accurate, reliable high-voltage detection in any environment.

LiveTester LT220

✓ 11 Ranges– 240V, 1kV, 3.3kV, 6.6kV, 11kV, 22kV, 33kV, 66kV, 110kV, 132kV & 220kV

LiveTester URD

✓ 11 Ranges– 240V, 4.2kV, 15kV, 25kV, 35kV, 46kV, 69kV, 115kV, 230kV, URD 15kV & URD 25kV.

LiveTester Wideband

✓ Designed to reliably detect voltages in the frequency range from 25Hz to 100Hz. Automatically compensates to provide stable and constant sensitivity for all frequencies in this range.

LiveTester Proof Tester

✓ The Proof Tester lets you verify your voltage detector is working before every use, reducing uncertainty and strengthening compliance. A perfect companion to your LiveTester for teams who need absolute confidence.

LT Proof Tester
Product Code: SL-X-LT Proof Tester

LiveTester LineAware

COMING
SOON

✓ A simplified version of the LiveTester range, designed for first responders and non-utility personnel who need fast, reliable high-voltage detection during emergencies.

✓ Offering the same core safety features as the existing LiveTester range. Packaged for quick and easy operation.

100% Australian Designed, Manufactured & Tested

LiveTesters are proudly designed, manufactured and tested in Australia, ensuring the reliability, consistency and quality demanded by high-risk electrical environments.

Reliability Tested. Every Unit.

Every LiveTester undergoes a rigorous **three-stage testing and calibration** process in our high-voltage test facility to ensure accuracy, durability and compliance.

StarLogixs High Voltage Test Cage

Engineered to Industry Standards

Product Quality & Reliability

- Australian-designed circuitry
- Conformal-coated PCBs for durability
- IP65 environmental sealing
- ISO-aligned QA processes
- Built using advanced automated manufacturing

Detection Face on each LiveTester

Specifications

- Weight (no batteries) 8.5oz (240g)
- Dimension 11.3"L x 3.35"W x 3.35" H (287mmL x 85mmW x 85mmH)
- Warning Light Intensity 10,000 mCd
- Warning Beeper Intensity 80dB @ 3 Feet (1 Meter)
- Power Supply 3 x C Cell Batteries
- Battery Life
 - Standby (unit off) 10 years (1)
 - On (no alarm) 69 days (1)
 - On (alarm condition) 18 days (1)

(1) Battery life calculated using Eveready C Cell Energiser batteries with a 7,000mAh capacity down to 1.0V cell output.

All StarLogixs products include a 1-year manufacturer's warranty. Reflecting our commitment to quality and reliability.

Your LiveTester Support Team

Backed by industry experience and a commitment to safety, the StarLogixs team are here to support you with product guidance, technical insight and distribution enquiries.
