

Corrosive Substance Storage Cabinets

Usage

A range of high quality, durable cabinets for the safe and compliant storage of corrosive substances.

Features & Benefits

- Stainless steel pin continuous hinging for strength and reliability
- Strong fully adjustable shelving perforated for free air movement, 100mm adjustment increments
- High capacity liquid tight sump to contain spills
- State of the art powder coat finish for high durability and performance
- Built in flash arrestors and vent openings [for mechanical ventilation systems]
- Distinct safety signs and directions
- Manufactured in Australia

- Heavy Duty Models feature 25% heavier materials than the minimum legislative requirements, unique spark-proof, self-latching locking system with lockable handle, suspended perforated floor and a drain plug to sump for safe disposal
- Manufactured using high density polyethylene and corrosion resistant materials
- Relocatable models are ideal for outdoor storage
- Patented SAFE-T-CLOSE sequential closing system
