

Minibar

**Compact.
Elegant.
Excellent.**

Dr. Coffee Minibar series offers full control and customisation throughout the day. Perfect for the office, convenience store, meeting room or public spaces.

The large full colour LED touch screen allows for custom branding and imaging, and with its elegant light bar, it will stand out in every environment.

Ceramic grinder
Ceramic flat-type blades, accurately grind the beans into unified-size powder, bringing out unique flavour.

Be your own barista
Be your own barista and get creative with the manual steam wand (S2 model) or let the machine do the work and create up to 24 different drinks.

Hot chocolate
Not a coffee drinker? Hot chocolate, Chai Tea, Matcha Latte, all options are available thanks to the large powder hopper.

Custom branding
The large LED screen is fully customizable with the ability to add images, logos as well as custom icons for personalised beverages.

Automatic Cleaning

All cleaning operations are automatic to save time and cut down on operating cost.

Metal, high capacity Brewer

The pioneering brewing system can meet your need for both non-pressurised regular coffee and pressurised espresso.
