

The Standard in  
**Durability  
and Reliability**

Durable and reliable is what Sonosite is known for, and each ultrasound system we make comes with a comprehensive warranty.\*

Our systems and proprietary transducers are built tough: able to withstand a 3-foot or 1 metre drop, resist fluid contamination, and work in harsh conditions without pause.

With that kind of performance, it's no wonder that we've installed more than 145,000 ultrasound systems worldwide.

In the unlikely event that your Sonosite system does need repair, our overnight loaner program minimises costly downtime.

## Cost savings from Sonosite's 5-Year standard warranty

Year	Sonosite's 5-Year standard warranty	Industry 1-Year standard warranty**
1	\$0	\$0
2	\$0	\$5,000
3	\$0	\$5,000
4	\$0	\$5,000
5	\$0	\$5,000
Additional cost to customer	\$0	\$20,000

\*\* Based on \$50,000 purchase price and annual service contract of 10% of purchase price.

## 1-year warranty inclusions

- Transducers T8-3
- Stands, batteries, monitors, and other accessories which carry the Sonosite label

## Extend warranty coverage

Where available, Sonosite offers SonoProtect<sup>®</sup> Service agreements to maximise your warranty coverage with supplemental protection or Sonosite warranty extension. Visit [sonosite.com](https://sonosite.com) to contact a customer service representative about purchasing a SonoProtect<sup>®</sup> service agreement.

\*Please see Sonosite's terms and conditions for detailed coverage information on warranty offerings. Terms may vary for veterinary products. Warranties are not transferable outside the country where the product is purchased.

<sup>+</sup>For Sonosite PX and Sonosite ST stand: stand head only includes 5-year warranty.

Sonosite will only honor warranty on products purchased from authorised Sonosite distributors.
