

# Increased stability for sensitive applications

## Linea scan

### ADVANTAGES

- **Safe in radiology**  
100% non-magnetic materials.
- **Secure positioning**  
for patients and staff.

---

### TECHNOLOGY

- **Tested quality:**  
Tested in our own test laboratories according to European standards.
- **Strong and secured stand:**  
Extreme torsional rigidity ensures that sensitive equipment does not move.
- **Chemical resistant:**  
Resistant to many cleaning agents and chemical substances.
- **Reliable scanning:**  
Antimagnetic for security scanners and magnetic resonance tomography.
