EI 1511 Electric Pressure Cleaner with Hire Frame

Part Number: #EI1511

The EI1511 electric pressure cleaner with hire frame is a compact single phase industrial machine, developed in Australia for Australian conditions. The pressure cleaner has many great features including a heavy duty roll over frame with folding handle to protect the machine from accidents, a slow speed motor, heavy duty pump and optional turbo lance. It also allows easy access for maintenance and servicing. The compact heavy duty nature of this pressure cleaner makes it highly mobile and ideal for hire companies and contractors in the industrial water blasting industry

SPECIFICATIONS

Flow: 11 lpm
Motor Power: 2.2kW
