CAREPLUS™ HOSPITAL

CarePlus™ Hospital is a trusted and certified Nurse Call solution for the best care coordination and management in acute facilities. The healthcare industry needs increased support, especially in high-impact environments requiring constant channels of communication and essential performance response times. The CarePlus™ Hospital Nurse Call system prevents patient neglect and unnecessary staff stress, reduces alarm fatigue, and improves proactive quality care for business intelligence whilst also fostering a safe environment. A superior design provides minimal maintenance through the optimal use of resources for efficient workflow and productivity. Additional benefits of this highly reliable technology is the significant economical installation.

This Nurse Call system improves high acuity workflow, collects and analyses real-time data, and provides measured success and reporting outcomes. These robust reporting capabilities and adaptable multiple user interfaces are easily scalable through powerful visual analytics. The smart software is efficiently integrated and secure, fully traceable and runs encrypted messaging between staff through cellular and Wi-Fi networks. The IP system utilises durable ARM processors and IP call points for tamper-proof and productive applications. Smartphone mobile connectivity enables the right person to receive the right message, at the right time, to minimize alarm broadcasting for a quieter and more peaceful care environment. This specialised solution meets the specific needs acute care facilities demand for significant quality, standards and safety.
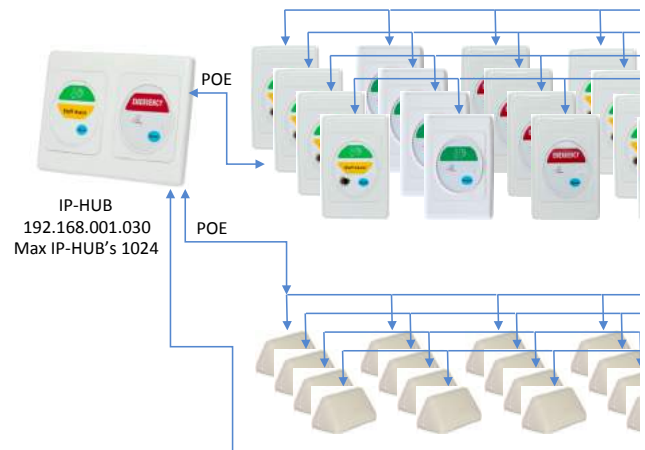

Main Benefits:

- Integrated with current technology wireless solutions, handheld devices, and mobile staff duress.
- Accurate and traceable: Proactive priority communication integrity.
- Certified MDDS Class II, FDA and TGA.
- Greater patient and staff satisfaction.
- Detailed analytics and reporting.
- Robust, tamper-proof, compliant and productive.
- Decrease staff workload.

Features:

- Multifunctional applications with wired and wireless solutions.
- IP system with durable ARM processors and IP call points.
- Incorporates all existing CarePlus™ technology for easy upgrades.
- Mobile Connectivity compatible with Apple, Android, DECT and Cisco devices.
- Auto learn configuration/third party interface options.
- Built-in infection control: anti-bacterial, anti-fungal coating.
- 99% biocidal kill rate.
- Scalable and flexible from 30 beds to 1,000 beds.
- Asset tracking and Mobile Staff Duress options.
- Comply with AS3811 Hard-wired patient alarm systems.

Example of options available	
CP-Server-2	CarePlus™ Server licensed for 2 wards
CP-Server-5	CarePlus™ Server licensed for 5 wards
CP-Server-10	CarePlus™ Server licensed for 10 wards
