

Panda Flowpack

WHEN VERSATILITY
MEETS RELIABILITY

- + Panda is a robust, reliable and versatile machine, with all the main characteristics and specifications to comply with the wide range demand of the market : an interaction of style and functionality.

Panda, the flowpack suitable to fit the high level of customization required, meeting all the needs of a huge variety of small and medium sizes food and non-food products up to a speed of 300 ppm.

100% made in Italy, Panda is the synthesis of more than 50 years of dedication, skills and competence, combining design, technology, reliability, flexibility and solidity.

Panda fits easily into a complete process flow, connecting with reliability the productive cycles to the logistic activities.

The variety of sealing concepts and configurations, attributes an effective response to the very different packaging needs, from the managing of fragile products, to the perishable and fresh products handling.

VERSATILITY

Panda, the solution to the several requirements of the market, for a wide range of food and non-food applications and perishable products.

Features:

HIGH SPEED : UP TP 300 PACKAGES PER MINUTE

FRIENDLY USER AND EASY MAINTENANCE

LARGE VARIETY OF SEALING DEVICES

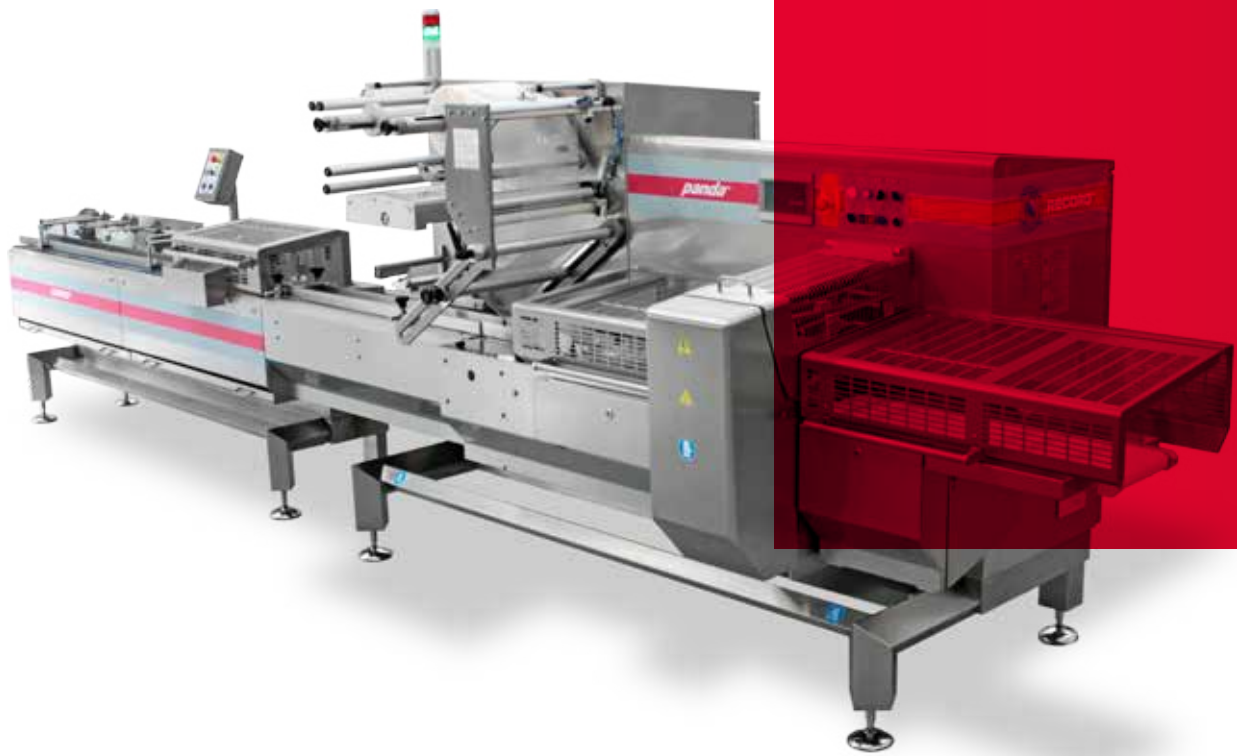

WIDE RANGE OF CUSTOMIZATIONS

FOOD GRADE BASIC MATERIALS AND EASY TO SANITIZE DESIGN

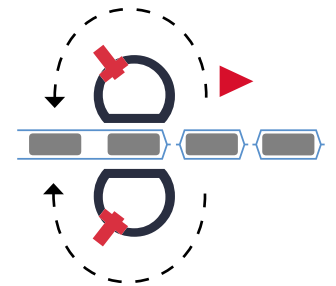

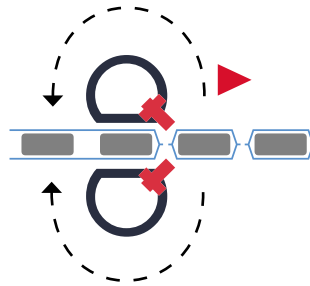

PACKAGING OF SMALL AND MEDIUM SIZE PRODUCTS

Super Sealing Jaws Head

ERGONOMIC DESIGN

Panda design based on the concept of flexibility, from regular overwrap to MAP and FlowBag applications: one machine, different means of packaging.

Panda, for easy maintenance and easy cleaning for granting a high level of hygienic standards, essential condition for packaging environments of food products.

**RELIABILITY AND
ROBUSTNESS**

**MAP
READY**

Experience and know how risen over more than 50 years, generated a reliable and solid flowpack, to grant high productive performances.

Panda allows extending life of perishable products through the Modified Atmosphere Packaging, replacing the residual O₂ in the package, by flushing inhibitors and inert gasses.

**FLOWBAG
READY**

Panda is available for FlowBag applications with benefit into the meat and cheese industries, assuring a higher degree of hygiene and automation process compared to manual bagging.

RECORD™
PACKAGING MACHINERY

“

Since more than 50 years we design and manufacture in Italy packaging machines and automatic lines for food and non-food industries.

Reliability, functionality and efficiency are key elements of Record's machineries, with a high level of customization to meet the requirements of the demanding markets.

100% made in Italy, technologically up to date and durable over the time, the Record's HFFS can be equipped with a wide range of modular feeders, easy to be integrated in automatic process lines, from primary to the secondary packaging.

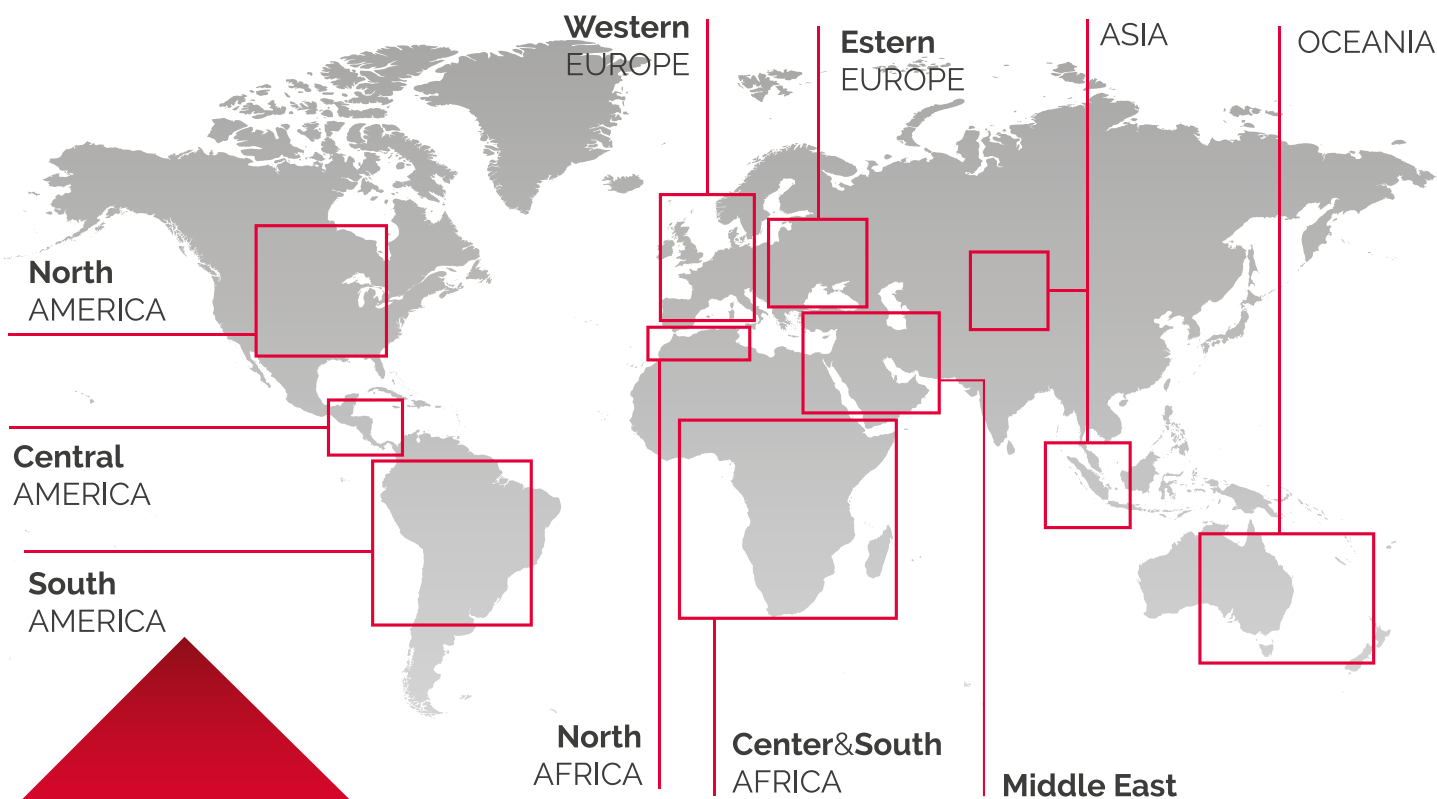

Established worldwide: present in any mainland with a large distributors network, Record has installations in any country, achieving customers loyalty through the built knowledge and by offering an high level qualified assistance.

Since more than 50 years
**WE DESIGN
PACKAGING SOLUTIONS**

Thanks to the know how built through our long experience in the field, we can create complete solutions, integrating the entire packaging process involving the related productive activities and logistics, from distribution and packaging to the forming and closing.
