# **DYNACO S-539 Cat.2 Atex Compact**

The Dynaco S-539 Cat.2 Atex Compact is specifically designed for inside applications in explosion sensitive environments, category 2. Officially approved by Apragaz notified body for use in potentially explosive atmospheres.

All metal parts are stainless steel, non-metallic parts are composed of antistatic or electrical conductive materials, thus avoiding the build up of static electricity that could generate sparks.

Operating speed and perfect sealing properties improve your traffic flows and provide employee comfort, environmental control and savings on energy costs.

Fully self-reinserting, the Dynaco S-539 Atex Cat.2 Compact will automatically reinsert itself in its side guides when the curtain is accidentally hit.
