## PAVILION

### MakMax Modular Shade Structures

The Pavilion Modular Structure has perimeter columns in each corner, providing clear access under the full canopy area. The perimeter columns have a lower foundation load compared to the Monaco and other central column structures, making it easier to install on existing slabs and ideal for integrating guttering and blinds. Pavilion perfect for outdoor dining areas, function spaces and wedding venues. The Pavilion is also well suited to school assembly areas and playground shade, and multiple units can be joined together to create sheltered walkways.

- » Multiple units can be linked together to increase the shade and weather protection area.
- » Available in Contour Edge and Linear Edge.
- » Engineered as a permanent shade structure, Pavilion Modulares are designed for any Australian wind speed.
- » Completely weather-proof, Pavilion models include galvanised steel cables with stainless steel fittings and UV stabilised membrane.
- » Available with a range of accessories, such as LED lighting and heating.
- » Drop blinds and gutters can also be fitted to Pavilion Linear Edge models.

## Pavilion Modular Shade Structure

### AESTHETICS & ACCESSORIES

- » Attention to detail in all aspects of product development means the finished product is architecturally pleasing and efficiently designed.
- » Wide range of accessories available including;
  - Heaters and misters.
  - Lights and electrical connectivity.
  - Blinds and guttering.

### DESIGN & ENGINEERING

- » Leaders in shade and weather protection structure design since 1985.
- » All products are certified by a practicing and accredited structural engineer.
- » Wind rated to suit location and wind category.
- » Structural design is to AS/NZS1170.0, AS/NZ1170.1, AS/NZ1170.2, AS4100, AS3600 and AS1170.4.

### MEMBRANE

- » The tensile membrane canopy is fabricated from long-life, 100% UV stabilised, waterproof, architectural-grade PVC (coated polyester fabric with a PVDF finish to both sides).

### STEEL FRAME

- » The structure employs tubular steel components finished with a four-layer powdercoat protection system.
- » Choose from a wide range of steel colours.

### HARDWARE

- » Canopy is tensioned with galvanised cables or aluminium sailtrack
- » All hardware inclusive of nuts, bolts, washers, and rigging screws are galvanised.
- » Top hats are spun aluminium with polyester powdercoat.

### INSTALLATION

- » Offering a range of installation options, from complete 'turn-key' solutions, to working in partnership with your preferred builder or construction company.
- » Our expert project managers deliver on the construction of the project to ensure minimal impact on your venues activities.
- » Full service warranty and maintenance support.

### LINEAR EDGE

Increase your usable space with a Pavilion Linear Edge model. Ideal for alfresco dining, a straight edge means more seating under the canopy.

A fixed, straight-edge also adds the ability to attach guttering or drop blinds, making the structure even more weather-proof.

#### CONTOUR EDGE

6m x 6m Canopy  
29sqm of cover

#### LINEAR EDGE

6m x 6m Canopy  
36sqm of cover (26% more cover)

CANOPY SHAPE / COLUMN	CANOPY SIZE	MODEL NUMBER
	m	(L=Linear Edge)
PERIMETER COLUMN	4 x 4	PS40
	5 x 5	PS50
	6 x 6	PS60 / PS60L
	7 x 7	PS70 / PS70L
	8 x 8	PS80
	9 x 9	PS90
	10 x 10	PS100
	12 x 12	PS120

### THE MAKMAX AUSTRALIA DIFFERENCE;

- » We provide you with an in-house engineering and design team.
- » Available world-wide through MakMax Group companies and our network of local agents and installers.
- » A commitment to quality, the environment & safety; ISO certification ISO 9001, ISO 14001, ISO 45001.
- » 40 years of history in Australia, backed by 100 year global history in tensile membrane.
