

# SILT CURTAIN

ENGINEERED DESIGNS SUITED  
FOR ALL CONDITIONS

When environmental protection is called for, it's paramount that a silt curtain performs to expectations. These silt curtains have a reputation for quality and reliability, proven to be outstanding since 2009.

The standard curtain length is 20m. Made to measure lengths and depths are available. Designs can be customised to meet specific project requirements such as water conditions, handling, longevity, visibility and government regulations.

The range is segmented into classes that suit common project requirements.

Type	Risk	Conditions
Class 1	Low	Short term use in calm waters
Class 2	Medium	Moderate wind and/or water forces (river, calm harbour)
Class 3	High	Strong wind and water forces (open ocean, harbour, river mouth)
Heavy Duty	High	Long term deployments in harsh conditions

Packaged to meet your needs and ready to deploy.

## FEATURES

- High quality materials
- Reliable components
- Expert workmanship
