

CUSTOMISED WELDING CELL

Designed to weld large, heavy and awkward parts

Key Features:

- Fanuc ArcMate industrial welding robot
- Fronius or Kemppi Robotic Welding Equipment
- Complete range of welding positioners
- Pre-engineered, modular, components with proven designs
- Installation, commissioning and onsite training

Key Specifications:

- Positioner Payloads: 500-60,000kg
- Extended reach of the robot with tracks, Gantries and portal frames
- Offline programming
- Welding Process: GMAW, MCAW, FCAW, GTAW
- Fronius or Kemppi water cooled multi process welding power source
